# **Edusakha** **Live Streaming Chat with Alumni**

## **About us**

Welcome to the unveiling of Edusakha's new website! We are excited to showcase our latest project, which aims to create a deeper connection between students and their college community. Through attending events and communicating with alumni using chat, we hope to enhance the overall university experience for students.

Our team has worked tirelessly to create a website that is both user-friendly and Innovative. With live streaming and playback options, registration page for students, and event management for the university and its alumni, our website provides a comprehensive platform for students to engage with their college community.

## About us

Myself Prakrit currently in my fourth semester, actively exploring the world of web development. To gain practical experience in this field, I recently undertook a project for my web technology subject. Utilizing HTML and CSS, I successfully built a web page, allowing me to grasp the fundamentals of structuring content and creating visually appealing layouts. I'm eager to continue expanding my knowledge and explore the additional functionalities that web development has to offer.

I have worked tirelessly to create a website that is both user-friendly and Innovative. With registration page for students, and event management for the university and its alumni, our website provides a comprehensive platform for students to engage with their college community.
